PROFILE

Enthusiastic and detail-oriented Web Developer with a strong foundation in HTML, CSS, JavaScript, and modern front-end frameworks like React and Bootstrap. Proficient in creating responsive, user-friendly websites and web applications. Eager to contribute technical expertise and creativity to build scalable and innovative solutions. Strong problem-solving skills, a quick learner with a passion for technology, and the ability to adapt to dynamic project requirements. Seeking an opportunity to grow and contribute as part of a collaborative development team.

PROJECTS

- **Untitled PG:** This React website uses Tailwind CSS for a responsive design with multiple pages, including Home, Submissions, and Error Pages. Navigation is managed by react-router-dom, with dynamic URL handling and a 404 NotFound Page.*(https://untitled-pg.pages.dev/)*
- **Booker:** It is an intuitive web app for managing bookings and appointments with ease. It provides a user-friendly interface, real-time scheduling, and seamless organization for both businesses and individuals. *(https://bookerapp.vercel.app/)*
